## **DETAILED ACTION**

1. This action is responsive to amendment received on Feb. 28, 2005. Claims 4-6, 9-13, 15 and 16 were amended. Claims 17-20 were newly added.

## Election/Restrictions

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10 and 12-20, drawn to computer network managing, classified in class 709, subclass 223.
  - Claim 11, drawn to computer data addressing, classified in class 709, subclass 245.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because invention I does not require determining two MAC address associated with a port where one of the MAC addresses is associated with the phone. The subcombination has separate utility such as invention II determines two MAC addresses associated with the same port where one of the MAC addresses is associated with the phone and determining two MAC address are not associated with the phone.

Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

- 4. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).
